

HLS™ Mineral Energy Supplement

Engineered for beef and dairy cattle

HLS™ Mineral Energy Supplement is a granulated mineral added to cooked molasses. It is used where protein is adequate, such as in high-quality summer forages or on winter forages. **HLS™** Mineral Energy Supplement is an excellent mineral to use in unison with other types of protein supplements.

All the good nutrients in the world do not mean a thing if your cattle will not eat them. Every trick known has been tried to coax cattle into nibbling a few precious ounces of vitamins and minerals. With **HLS™** Mineral Energy Supplement, palatability is not a problem because the vitamins and minerals are blended into a palatable molasses base.

Advantages of HLS™ Mineral Energy Supplement

- ★ Extremely palatable
- ★ No feeder required
- ★ Increased reproductive performance
- ★ No waste
- ★ No salt, fillers or binders
- ★ Controlled consumption
- ★ Most efficient way to feed minerals
- ★ Cattle get the added advantage of the available carbohydrates from the cooked molasses, that improves forage utilization. You cannot get this out of granulated minerals.

**CAUTION: DO NOT FEED TO SHEEP.
FEED ONLY AS DIRECTED.**
